The Governor's Resignation. Since the commencement of the civil war there has been no harmony existing between the Executive and the Legislative branch of the State Government, and Gov. Magoffin knowing such to be the case, finally agreed to resign his office, provided the resignation of Speaker Fisk should accompany his; also, that James F. Robinson should be elected Speaker of the Senate. Speaker Fisk, at once resigned and Mr. Robinson was unanimously elected Spesker. Now that we have another Governor, we presume there will be no longer a necessity for the Military Board, as there is considerable doubt as to lis constitutionality. The following is the Governor's communication aurouncing his resignation:

From the Cincinnati Gazette.

Vallandigham's Speech at Dayton, Ohio. The Dayton Journal gives the following report of Vallandigham's speech in that city on Saturday evening:

I speak not as menace, but by way of entreaty, that you hereafter depend upon your adherence to the laws and Constitution.

Why, sirs, men of position in this town, are proclaiming and justifying the right of disregarding the Constitution, for allowing an object which cannot be obtained without departing from it. Have they read history? The speaker here referred to the Greece, Rome, and the French Revolutions, for historic parallels-reading at length from Allison's history of the terrible horrors of the latter-tracing all of them to a disregard of fundamental law, he stated that these excesses came along step by step-till the atrocitles of Danton and Robespierre were reached, and added: 'What has been, may be.']

It was the history of the past that in times of great public danger, the provisions of law would not be respected. It was that which made France go into such great excesses .-They began with the lawvers of France. -They taught the multitude that constitutions did not stand in their way; that men might be put to death without process of law. In such cases, power falls into the hands of the worst of men.

Let the day of reckoning come, and these men will perish as they have done in all ages. Rohespierre perished in atonement for his crimes, &c. By the memories of the past, by the histories of the tyrannies of Greece and Rome, and the terrors of the French Revolution, I call on all men to demand of the Administration that it obey the Constitution .- poned. If any man is a traitor, guilty of any act of treason, not for opinion's sake, not for political differences-let him be proceeded against secording to law, and if guilty let him perish on a gallows as high as Haman. It is because I would avoid these horrors, that I call on the President to keep the exercise of the military law, where the Constitution keeps it -in the army and navy; and that no man, without dne process of law.

The convictions I entertain as a patriot, of the means to restore the union of these States, and for the Constitution as it is and the Union as it was, I will never give up-neither In life nor death, neither principalities nor power, neither things present or to come, nor the knife of the assassin, will move me from

it. [Load cheers.] He thinks it can be restored by arms yet. I do not. Those who agree with him should fight with him. It is an impelling necessity, manifest destiny, that we be one people. It is in the hands of God, only to be accomplished by the honesty of the people.

Now, fellow-citizens, I have somewhat to say about the attempt to suppress the rebellion. I always have been in favor of suppressing the rebellion. Perhaps my mode has not been that of other men, for I have a right to judge what mode should be tried.-I am for suppressing all rebellions; both rebellions. There are two; the Secessionist rebellion South, and the Abolition rebellion ists of the South, I commit that to the army fused to lodge the wayfarer. of the United States, four-fifths good Democrats-to the abused, outraged Major-General, George B. McCiellan. If he is not able to accomplish it, it is because it is not in the nature of things to be accomplished in that way. If he had been allowed to do as he wished, it would have been accomplished by this timo. If it was possible to suppress it by armed force, the plan proposed by him kind of a preacher he was." was the only one which could have succeeded. [The speaker then went on rehashing the slang of those who desire to strike the President by criticisms of the policy of the for his coat is not exactly the right cut for a war.] It implied the restoration of the Un- Methodist.' ion as it was. That's the trouble. All our victories were the result of his plan-all daughter, I could tell what sort of a preachour reverses followed his suppersession .- er he is. From that hour to this there has been no victory.

There are two rebellions against it. That of the rebels of the South, I commit to the Hard-Shelled Baptist! army. The other is that of the Abolitionists of the North. Every man must choose which he wi'l act against. I have never thrown one straw's weight against the enlist- I hab always in my life found dem to be ment of troops. I leave it to the army, and the Generals at the head of the army, to attend to the rebels at the South; but I propose in the exercise of my constitutional ne'er so great.

As, I judge from indications, it has grown to be rights, which cannot and shall not be taken from me, to put down this rebellion; and if any man thinks he should stay at home to put down Abolition rebels, he ought to do it.

You who don't choose to fight should unite against the Abolition rebels at the North. I have only to repeat, that in spite of what you have heard, of what has been said, of unfounded and damnable lies, whoever adopts this course from the dictates of reason, is for the Union.

The hour of trial, of vindication will soon come. In six months-in six weeks, it may be-tho question will be between an eteroal seperation and a Union by compromise. Which will you choose? It will come. Men must choose between the Union our fathers made and eternal disunion. I believo the Administration will declare for seperation. Then I shall be found in favor of the Union and against secession. The choice must be made and made soon. It cannot be post-

We have an enormous deht--accountlating at the rate of \$3,000,000 per day. How long can we endure that? We shall lose soon three-fourths of our army-250,000 already having been lost in some way. Yet you were told that it would end in twenty days.

You must soon decide between Union and seperation. I am for the Union of our fathers, and will stand by it-and I ask you to not in the army and navy, shall be arrested stand by it. It is the palladium of our liberties. We are in the midst calamities. Our hest paper money is 20 cents less than styles in gold. We have a heavy tax upon us reaching everything-which cannot be repudiated. A tariff also, which increases the duty from 44 to 130 per cent. Men caunot stand this but a short time. There is not one single thing which is not taxed, except the hright sun of heaven, the air we breathe, etc. These are terrible facts .-Something must be done. The voices of the people must be aroused.

If the President wants success, he must come back to the Constitution-he must abide by and execute all the law. Say to Congress, 'Repeal your Abolition legislation stay your hands. When this is done, in spite of the loss of life, destruction of property, etc.; in spite of all, the Constitution will be maintained and restored to powor, and the Union of our fathers will be maintained, and the old flag wave over land and

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to enre. It is helieved that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

motor of health, when taken in the spring, to They are delightful to the taste. expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the hud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of enruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the bursting through the skin in pimples, eruptions, public meeting for stilling your Cough allayla or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your, feelings will tell you when. Even where no particular disorder s felt, people enjoy better health, and live ager, for cleansing the blood. Keep the blood leidthy, and all is well; but with this pal ulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of A Package will be sent by mail, prepaid, on recim life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is elaimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, any thing else.

During late years the public have been misfeel by large bottles pretending to give a quart of Extract of Sersaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparida, but aften no curative properties whatevcr. Hence, bitter and painful disappointment lers followed the use of the various extracts of Sar aparilla which flood the market, until the name itself is justly despised, and has become synanymous with imposition and cheat. Still ve call this compound Sarsaparilla, and intend to sapply such a remedy as shall rescue the essi struming with Controllers, Vintuant, name from the load of obloquy which rests ND CHRONICHISEASES, AND CHORTHE LEADICATION upon it.
